2019 SPRING TECHNOLOGY CLASS SCHEDULE

WILLIAM A. MCGILL PUBLIC LIBRARY
732 S Pat Thomas Parkway, Quincy, FL 32351

CLASS DESCRIPTIONS

Can You Believe What You Read? How to Identify Fake News in the Media

Well, in recent years there has been an increase in the number of made-up stories and false news reports being posted on the Internet. If we share these made-up stories and treat them as true, we could actually be causing people to make misinformed decisions. We need to know how to not become influenced by this 'Fake News'.

In this lecture we will discuss the differences between 'fake news' and 'satire', How to identify both and what you can do to prevent from spreading it.

Take Back your Facebook Feed

Do you have a **Love / Hate** relationship with Facebook? Tired of seeing ads? Annoyed with all the notifications? Don't trust the news you read? Not seeing your friend's most recent post? Need more privacy?

Join us to over haul your feed and learn to LOVE Facebook again!

Smartphone Photography

This is a thorough class where you'll learn the tools, techniques, and photography tips to create gorgeous iPhone photographs. Learn how to use five of the most powerful iPhone Photography apps on the market to edit your photos. Finally, what good are great photos if you can't share them? We will show you how to quickly and easily share your newly created masterpieces with your friends and family. Students will need to bring their smart phone to participate. Instructor will be using an iPhone but you are welcome to bring any smart phone that ***you know how to operate***.

PowerPoint Presentation

Create a multimedia presentation using pictures, videos, and audio, then convert it to a movie to share with clients or family.

Classes are FREE and open to the public. Seats are subject to availability. Please arrive promptly. Children under the age of 18 are NOT allowed. To register, call (850) 627-7106.
